Concept of Observation book and lab record for lab courses

Observation book:

- (i) The basic objective of this observation book is that, whenever the lab session is scheduled, the student comes prepared for lab session by completely writing the programs/solving the problems.
- (ii) These have to be executed on the computer and should compulsorily show the required output to the lab in-charge and get them signed on the book.

Lab record:

- (i) Students are required to prepare a separate lab record for each lab course. This lab record should be duly signed by the practical Counsellor after each session.
- (ii) The lab in-charge should cross-check with the observation book before him/her signs on the record.
- (iii) 40 Marks allocated for the lab record.
